ALUMNI BULLETIN

~~Ref 411.65~~

Quinquennial Office

1814553

To the Alumni of the University of Arkansas:

The publication of this bulletin marks the beginning of a new era in the policy of the University of Arkansas towards its Alumni. For many years past, the Alumni themselves have maintained an organization, but conditions have been such that the results accomplished have not been satisfactory. The University has done very little to assist in making the organization more efficient.

With the intention of uniting the Alumni, both for their own interest and satisfaction, and for the interest of the University, the Board of Trustees has authorized the publication of an Alumni bulletin to appear at intervals throughout the year. It is hoped that this publication will assist in increasing a spirit of loyalty and love for alma mater, and that it will soon result in the Alumni themselves taking up the work and carrying it on. Any college or university that lacks the assistance of an organized, enthusiastic body of Alumni is laboring under a great handicap.

It is the intention to print in the Alumni bulletin just such articles and items of news about the University and the Alumni as it is believed would interest an Alumnus or former student. It has been thought wise to print in the first issue a list of the Alumni giving name, address, and occupation. A committee of the faculty has been hard at work for several months attempting to secure the necessary information and this bulletin is the result of their labors.

It will be noticed that the addresses and occupations of some graduate have not yet been obtained. These names have been inserted in their proper places in the complete list and for convenience a separate list of them has been added on page 39.

It is the wish of the University to know at all times where each Alumnus is and what he is doing; and, accordingly, any person who may be able to furnish any information about any Alumnus whose address is unknown, or to make any corrections in the list, is urged to notify the President of the University at once.

Notice of any change of address or occupation should also be sent in at once to the President.

The University wishes you continued prosperity and happiness.

Sincerely yours,

JOHN C. FUTRALL,
Acting President.
